

SUGPIAT GROUP, LLC

SBA 8(a) Certified

INTERNET OF THINGS (IoT) INTEGRATION

Alaska Native Corporation | Small Disadvantaged Business

The continuing threats to military personnel and critical infrastructure and the growing national cybersecurity vulnerabilities demand a new breed of credentialing technology. As we continue to see a rise of Internet of Things (IoT), the government's ability to rapidly correlate, evaluate and create value from data is key to have an edge on the battlefield.

Sugpiat Group brings expertise in IoT integration, leveraging complementary technologies to access and analyze data from sensors and process those feeds into actionable intelligence. We deliver connected IoT solutions for the enterprise, remote / telehealth, sensitive high security environments, and workforce monitoring.

Our systems were developed with the unique missions of the Department of Defense, Federal Civilian agencies, and non-governmental agencies.

We use machine learning to increase automation enabling autonomous decisions. Machine Learning leads to faster conversion of data to knowledge for intelligence collection, continually self-learning for accurate event prediction, and more rapid threat identification through a self-regenerating algorithm that logs, categorizes and predicts events.

We have solutions for the 21st century and beyond.

SUGPIAT GROUP, LLC.

CAPABILITIES

- *Autonomic Monitoring with Customized Alerts*
- *Software Development for IoT Sensors*
- *Machine Learning*
- *Event Logging and Prediction*
- *Remote Sensing*
- *Actionable Intelligence*
- *Secure Communications*
- *Encrypted Personally Identifiable Information (PII)*
- *Mobile to Embedded Peripheral Devices Integration*
