

SUGPIAT GROUP, LLC

SBA 8(a) Certified

SYSTEMS ENGINEERING & TECHNICAL ASSISTANCE

Alaska Native Corporation | Small Disadvantaged Business

Sugpiat Group addresses the growing need for Systems Engineering and Technical Assistance (SETA), Information Solutions, and Mission / Operations support for government clients by providing management oversight, requirements analysis, product and process integration, simulation and testing.

We define our customer's needs and functional requirements early in the development cycle and then integrate the appropriate technologies, hardware, and processes to achieve the desired outcome. We optimize client investments through cost-saving strategies and risk reduction, without sacrificing quality.

With well-defined, end-to-end processes and tools, we take advantage of high-value collaboration between engineering disciplines to design across product lines, enable design reuse, reduce inconsistencies and potential quality problems, and decrease engineering, manufacturing, and service costs.

We provide insight and experience for a variety of systems, supporting end-to-end planning, implementation, deployment, and enhancement of complex systems.

SUGPIAT GROUP, LLC.

CAPABILITIES

- Process Development*
- Mission Analysis and Architecture*
- Requirements Analysis, Development, & Management*
- System Design and Development*
- Systems Administration*
- Modeling and Simulation*
- Test and Evaluation/IV&V*
- Enterprise Architecture*
- Concepts of Operations*
- Risk Management*
